Plastics Engineering Company Awarded Bronze EcoVadis Medal

April 19th, 2022, at 9:53 AM CST

SHEBOYGAN, WI, Apr. 19, 2022 (PRESS RELEASE) -- Plastics Engineering Company (Plenco) today announced it has earned a Bronze Medal rating by EcoVadis for the fourth time since 2016. (EcoVadis is the leading platform for environmental, social, and ethical performance ratings for global supply chains).

This rating puts Plenco among the top 35 percent of manufacturers of basic chemicals, plastics and synthetic rubber in primary forms as rated by EcoVadis, which monitors sustainability practices across 200 industries and 160 counties on behalf of 75,000 companies. According to Len Nunnery, Plenco's Vice President of Marketing, Sales and Technical Service, the firm's improved rating is a result of a company-wide effort to achieve exceptional levels of corporate responsibility and sustainability.

"We are proud to be included in the 65th percentile of companies assessed by EcoVadis," said Len. "EcoVadis and our customers continue to raise the bar. Our people—across all functions and operations—are embracing the challenge to further improve all aspects of sustainability."
